\*According to the EU directive 2003/54/EG all electricity users in the European Union have the right to get information regarding the origin of the electricity and the environmental impacts of the electricity production. A separate report of the electricity sold during the nearest preceding calendar year is available at [www.skekraft.se](http://www.skekraft.se) The EU directive was applied to the Swedish Electricity Act in 2005. Please visit [www.ei.se](http://www.ei.se) for more information.
